**BIG REDUCTIONS IN PIANO PRICES.**

Famous Makes of Pianos at About One-fourth Actual Value.

More Than a Dozen Instruments Sold Yesterday.

Many Callers at the Sale Yesterday, and Nearly Every Caller a Purchaser. Inquiries and Orders Received from as Far Away as Norfolk, Va. Purchasers Still Coming and Sale Continues With Unabated Interest.

The Bradley piano sale of Pianos has thoroughly aroused the Piano buying public of Washington and the remarkable offer of the finer grades of instruments. The values offered are causing a great deal of discussion, not only in Washington, but in all the neighboring towns of Maryland and Virginia, and people who are posted on Piano prices are hastening to take advantage of what they consider a most unusual opportunity to secure a Piano of a reputable make at prices that are in many cases only one-fourth the actual value of the instrument.

The Bradley Piano Rooms at 1225 Pa. ave. were thronged with people all day Monday, and the best evidence that the Pianos are genuine bargains is that nearly every caller was a purchaser. The selling out of these Pianos is an absolute necessity with the Bradley manufacturers, so they cannot afford to hesitate on the mere question of price. Their ware rooms are crowded to the utmost limit, and they have no space in which to exhibit the many car loads of 1902 models which they are shortly to receive from the Bradley factories at Brooklyn and Leominster, Mass. Their prestige as the foremost Piano manufacturers in America demands that they should exhibit their new models before the public.

The Pianos which they are now sacrificing to meet the necessity for additional space include both Squares and Uprights in such famous makes as the Bradley, Steinhilber, Chickering, Gabels, Schenck, Gilbert, Stein, Decker, Vose, Groves and Fuller and other equally desirable instruments. Only forty-one of the Square Pianos are left, and a clean sweep of all these instruments must be made at once. Special prices have been made on all the used Upright Pianos in stock and all Pianos of this year's make.

Think of buying good, reliable Pianos as low as \$25, \$35 and \$45 on terms of \$1 weekly or \$5 monthly payments. There are also ten Organs in this sale which will be sold at \$25 to \$100, on very easy terms.

To show the widespread interest in this sale, several ladies in Washington received letters from their friends in outside towns who had read of the announcement of the sale in the Saturday Star, with the request that they purchase some of the Pianos that were being sacrificed, to be shipped to them, as the prices were far below anything they had heard of in their community. Special arrangements will be made with those who desire Pianos to be shipped, but we cannot reserve any of the stock, except on payment of a deposit, as we need the room, and cannot afford to miss a sale that will help us to clear out the entire stock.

any conspiracy in New Jersey that results directly or indirectly in the assassination of any ruler the world over, the murder of any person in or out of New Jersey. There is something charming in the rural community. It is true, still it is harder to men to act as a unit in affairs in the country than in the city. When there are large come punishment as if they were convicted of aiding and abetting in an ordinary case of murder." Not a state in the Union but in this could properly follow New Jersey's lead.

**Southward Development.**

From the Knoxville Sentinel.

The south is receiving very little immigration from other sections and the growth of this region will continue to be a natural growth. But the development of the manufacturing and mining industries will have a influence in increasing the flow of population from the rural districts to the larger centers. The south needs cities because the city is the best medium for the development of enterprises. There is something charming in the rural community. It is true, still it is harder to men to act as a unit in affairs in the country than in the city. When there are large come punishment as if they were convicted of aiding and abetting in an ordinary case of murder." Not a state in the Union but in this could properly follow New Jersey's lead.

Shortly before 4 o'clock yesterday afternoon Jane Green fell from a Capital Traction car near the corner of Pennsylvania avenue and 3d street northwest. She was slightly injured about the head, but was able to go to her home, 604 New Jersey avenue northwest.
